

Because fuel cells are a solution the world believes in

Fuel Cell Europe

Workshops on **fuel cells** and **hydrogen**

Advancing the debates on the market uptake

A series of one day workshops in Brussels, covering critical issues around fuel cells and hydrogen.

Join the debate about fuel cell technologies, applications and market perspectives with experts, executives, thought leaders, users and investors from the fuel cell and hydrogen sector, renewable energy and energy utilities as well as clean technologies sectors.

5 reasons to participate

- Gain **insight** on the status of fuel cell and hydrogen technologies
- Learn **best practices** and discover successful case studies
- Debate **potential and barriers** with leading industry and research experts
- Discover **the market perspectives** and initiate business opportunities
- **Network** with experts and executives sharing similar interests

FuelCellEurope is the leading association representing the interest of the fuel cells in Europe, committed to accelerate the development and market uptake of fuel cell technology.

Programme and details about the workshops can be found at

Workshops on **fuel cells** and **hydrogen**

Advancing the debates on the market uptake

The sessions

25 th March 2010	CHP for green cities: onsite production of heat and electricity <i>Official free event of the European Sustainable Energy Week</i>
28 th April 2010	Electrolysis: enabling systems for renewable energy storage
26 th May 2010	Fuel cell powered forklifts and merchandise handling
16 th June 2010	Green hydrogen
15 th September 2010	Fuel cells for UPS - Uninterrupted Power Systems
20 th October 2010	Fuel cells and hydrogen in the retail industry
08 th November 2010	Hydrogen storage
09 th December 2010	Fuel cells and hydrogen: for the marine and harbour industry

Practical information

- All workshops are taking place in the centre of Brussels, Belgium
- Register for one or more workshops by completing the online registration form accessible on the following website:
<http://fuelcelleurope.eurokeys.eu>
- The participation fee is € 450 for non FuelCellEurope's Members or € 350 for FuelCellEurope's Members per workshop
- For travel and accommodation assistance, please contact us via email at workshops@fuelcelleurope.org

Speaking opportunities

If you are interested in participating also as a speaker for one or more of the workshops, please contact us via email at p.tisserand@fuelcelleurope.org

Sponsoring opportunities

If you are interested in sponsoring one or more of the workshops, please contact us via email at s.carrilho@fuelcelleurope.org

The workshops are organized with the support of Euro Keys
